

Management Consultant Update: 7-17-21

I am pleased with the response to the RFP - 6 firms have submitted proposals. The RFP required them to provide 5 copies, one for each of you and one for me. I delivered those copies to Mark a short time ago and he indicated he will get these to you in the next few days - or pick them up from him. I will review the proposals over the weekend and write a short memo objectively summarizing if that's possible (the proposals might not be conducive to an actual summary). Either way, I told Ryan I'd get him a memo by Tuesday at noon of these proposals to update the packet. If you'd like the community to have access to these, Ryan said they have the capability to scan them.

I just sent a short email on behalf of the Board to the person listed as the contact in the Proposal for these companies, thanking them for their interest and submittal.
